Process Flow of Cane Accounting — MicroMax ERP

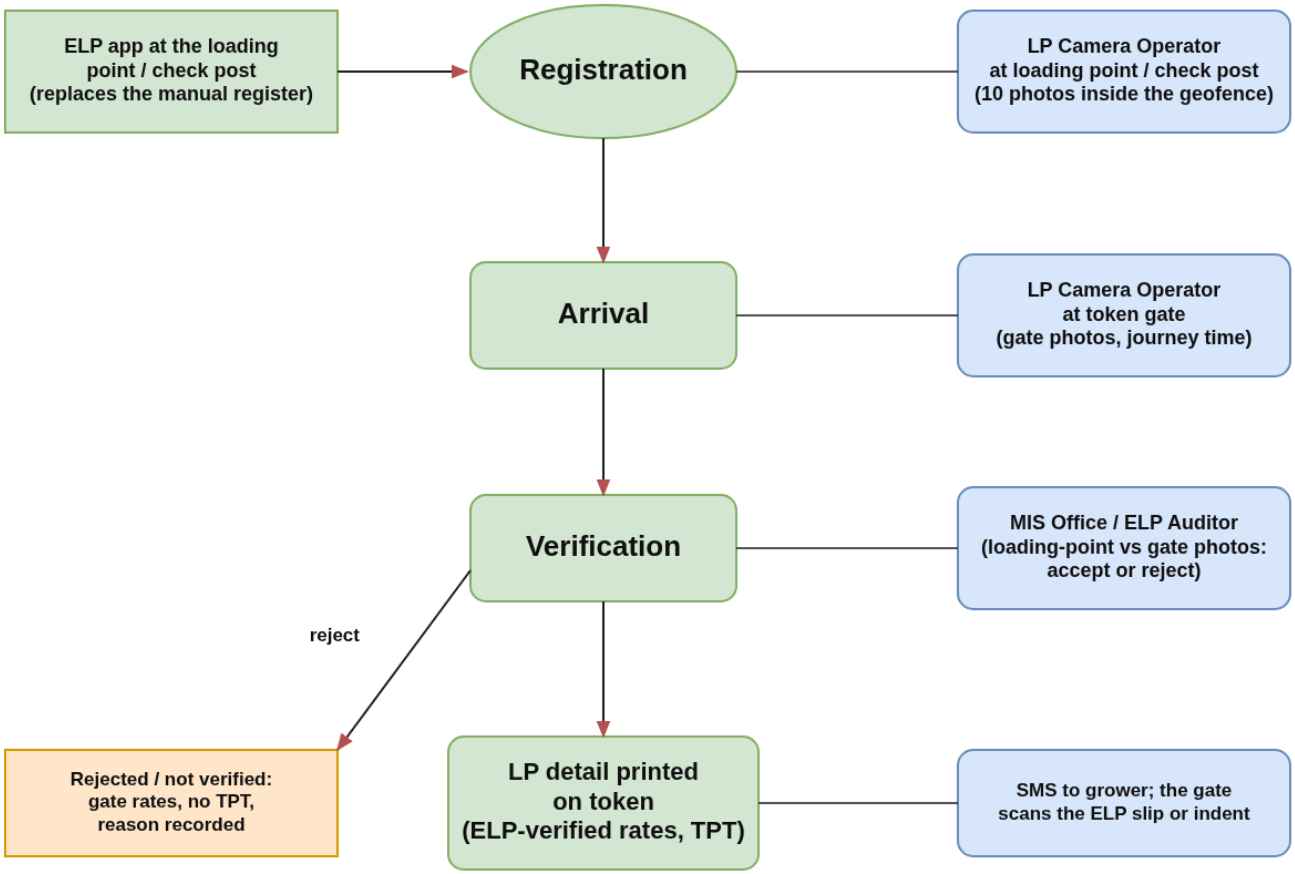

The CPR carries the grower's loan recovery (cut at tare) — the scroll pays the net; TPT is paid to the driver at the counter.

Cane staff · MIS / operators · Accounts · ERP step · detail

MicroMax Sugar Mills ERP · 2026-27

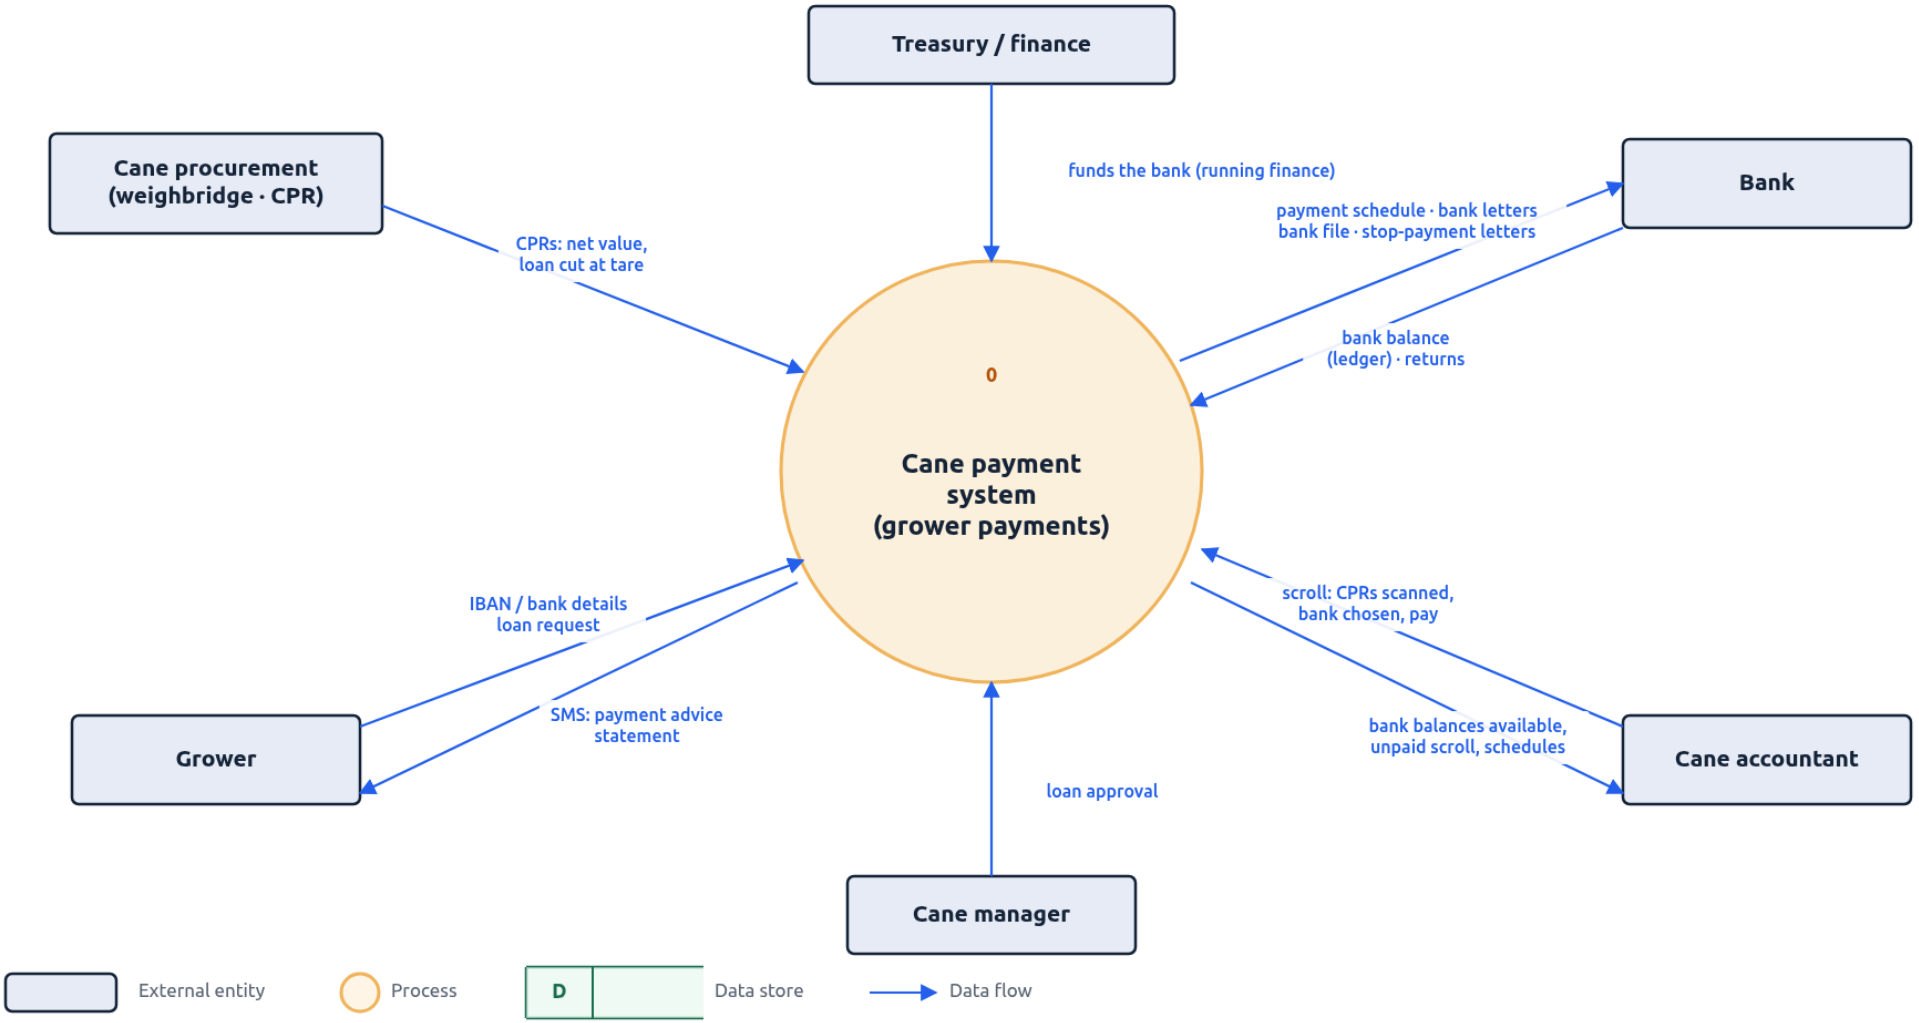

1 · Process flow of cane accounting — from grower code to the bank transfer (updated from MIS Workflow V3, 05-09-2026, to the ERP).

ELP Vehicle Registration — System Architecture (ERP)

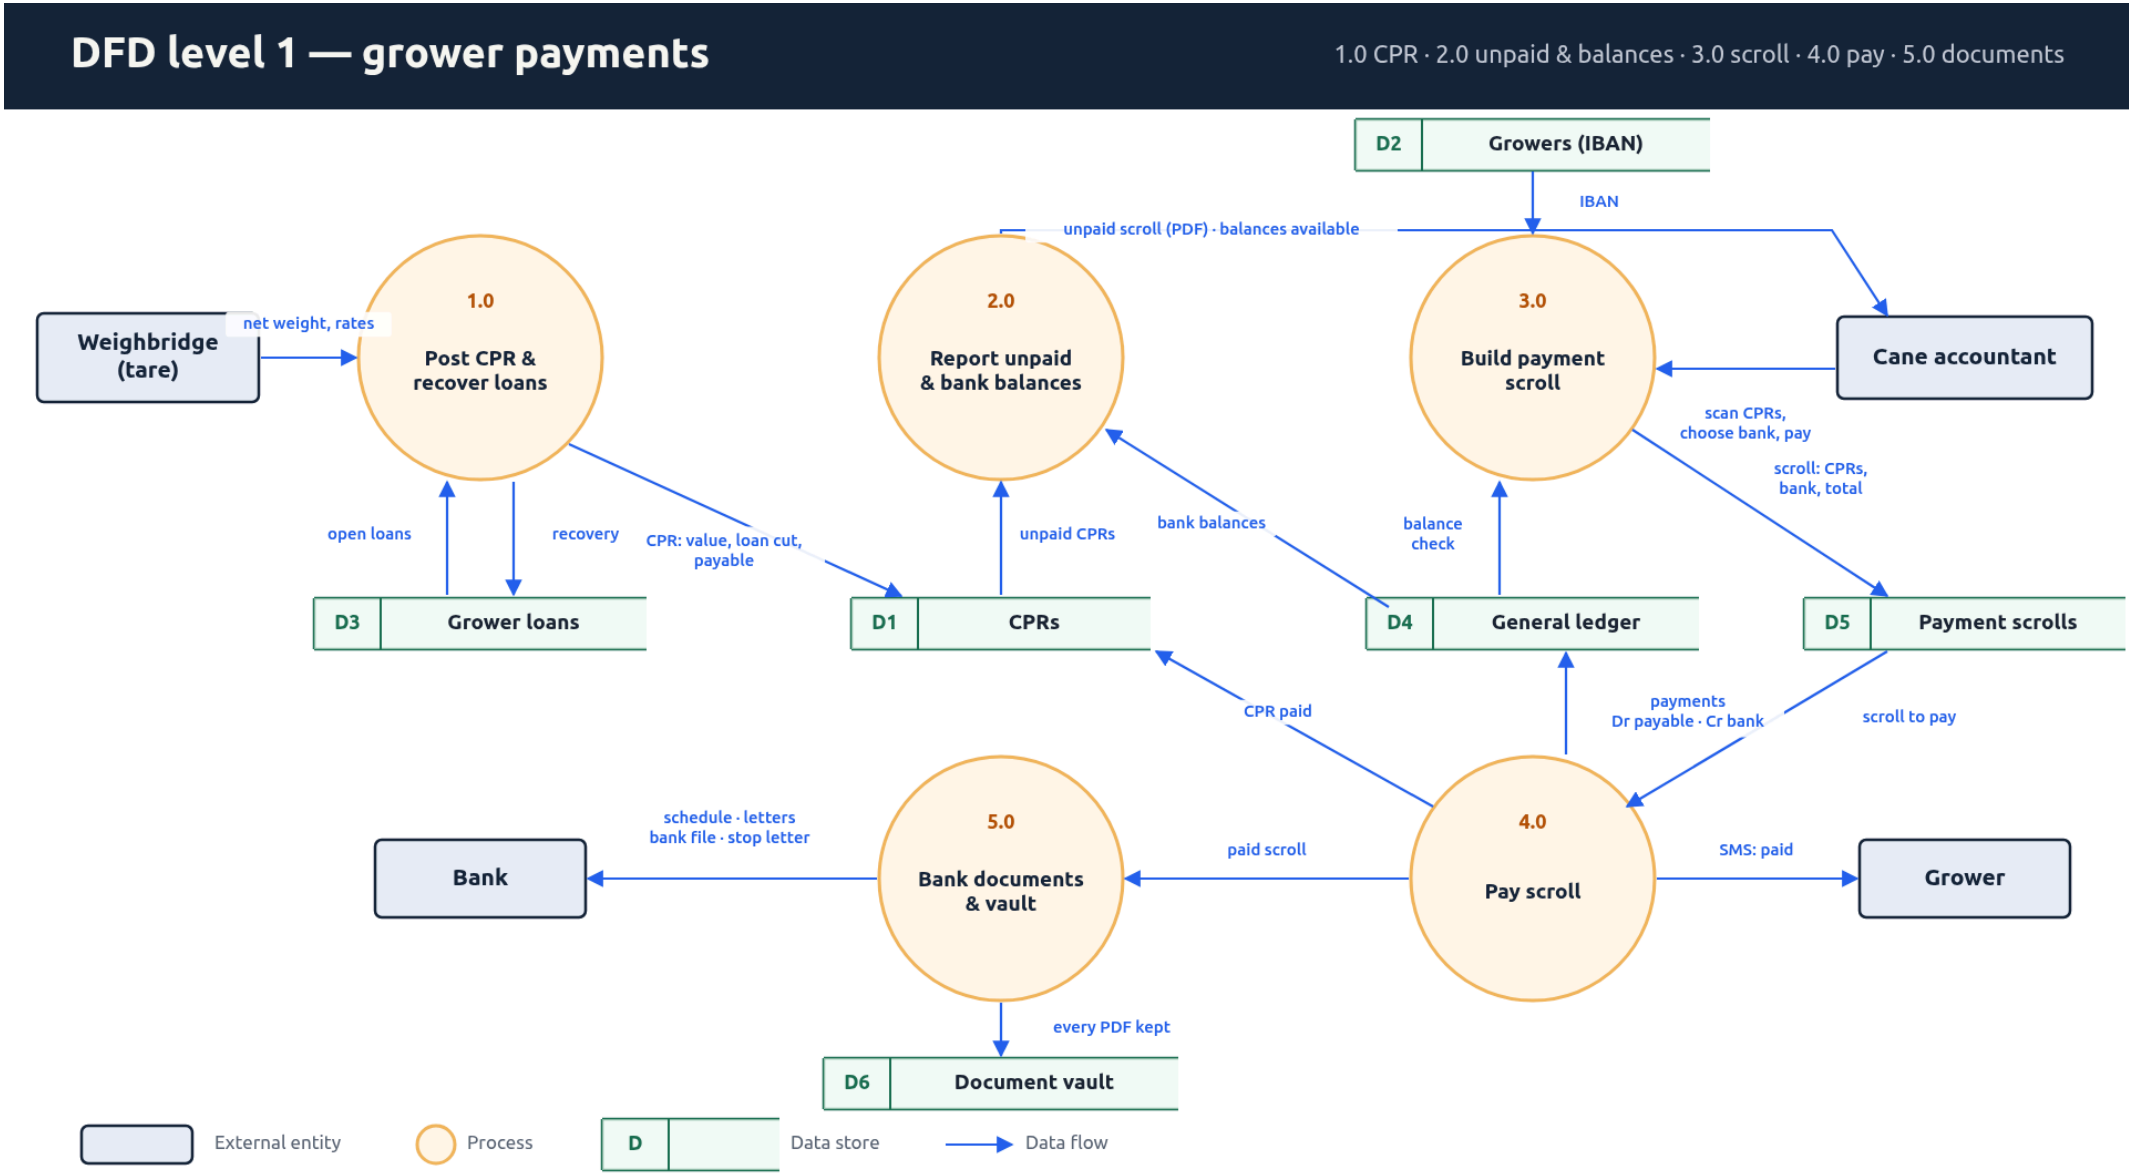

2 · ELP vehicle registration — registration, arrival, verification, LP detail on the token.

DFD level 0 — context: grower payments

3 · DFD level 0 — grower payments in context.

4 · DFD level 1 — grower payments: CPR and loan recovery, unpaid and bank balances, scroll, pay, bank documents.
